Based in Laredo, Texas, **Ascent Foods** offers a variety of quality products for the retail, food service and industrial markets. Vertically integrated, Ascent Foods meticulously supervises the entire cycle from the fields and processing plants, to our strategically located repack facility and finally to our clients. By leveraging our vast combined **experience of over 30 years**, robust supplier network domestically and abroad, R&D and marketing programs, along with our core values rooted in integrity and customer service we guarantee we know the industry and can continually supply quality select products at competitive prices.

Our manufacturing facility is located in Laredo, Texas, a **major border crossing and international hub** between the United States and Mexico.
